Smart you ♥ Smart home

Oakter manufactures a diverse range of home automation products. The company has strong expertise in manufacturing, electronic design, user experience and software development.

Brand Oakter is an offshoot of Mechartés Researchers Pvt. Ltd which is one of the world's leading companies in engineering design and simulations. Mechartés was started in 2005, under the technical incubation program of IIT Delhi. Oakter was launched in 2015 after 2 years of research and development. Oakter has quickly gained prominence as one of the major players in the Indian home automation market

Oakter is focused towards delivering the best quality products at the right price while ensuring delight in customer experience. Oakter takes strict measures to ensure security & privacy of its customers. The company is ISO 27001 certified for Information security management system and the products are CE certified. Oakter products are designed, developed and proudly made in INDIA

We strive towards enriching our smart home portfolio regularly with new additions that are compatible with Oakter's smart home hub so that users can constantly enrich their smart home experience and improve their home management productivity.

THE ASIAN AGE

This one is a winner. We definitely recommend Oakter if you want to convert your home or work in to smart

BusinessLine

What makes the product click (for us) is the timer function, which lets you set the plugs to switch on and off at specific timings

mint

The configuration is simple. You plug in and set up your preference using the Oakter App. The app can control lights, fans, water heaters, kettles and air conditioners.

FIRSTPOST.

Internet of Things or IoT is believed to be the future of tech, and companies are already gearing towards making it a reality, be it giants like Google, Samsung, or Indian companies like Oakter

NDTV

If you're looking to smarten up your existing home in 10 minutes without any messy wiring this is a superb investment

THE ECONOMIC TIMES

Very simple to set up -The whole process took less than a minute, and the app is very simple and easy to understand

THE TIMES OF INDIA

It worked perfectly, over a space of 1800 sq ft (with walls in between). Kudos to Oakter for such an ingenious solution.

NBT नवभारत टाइम्स

घर से इंटरनेट होम ऑटोमेशन सिस्टम पाना एक मस्कील काम हो सकता है Oakter के प्लग एंड-प्ले-के चलते ऐसा करना आसान हो गया है
